But Technology and Content Partners is Only the Beginning!

Technology as the Bridge for Transformational Relationships

We facilitate 1:1 relationships when possible between each persecuted church and a church in the west

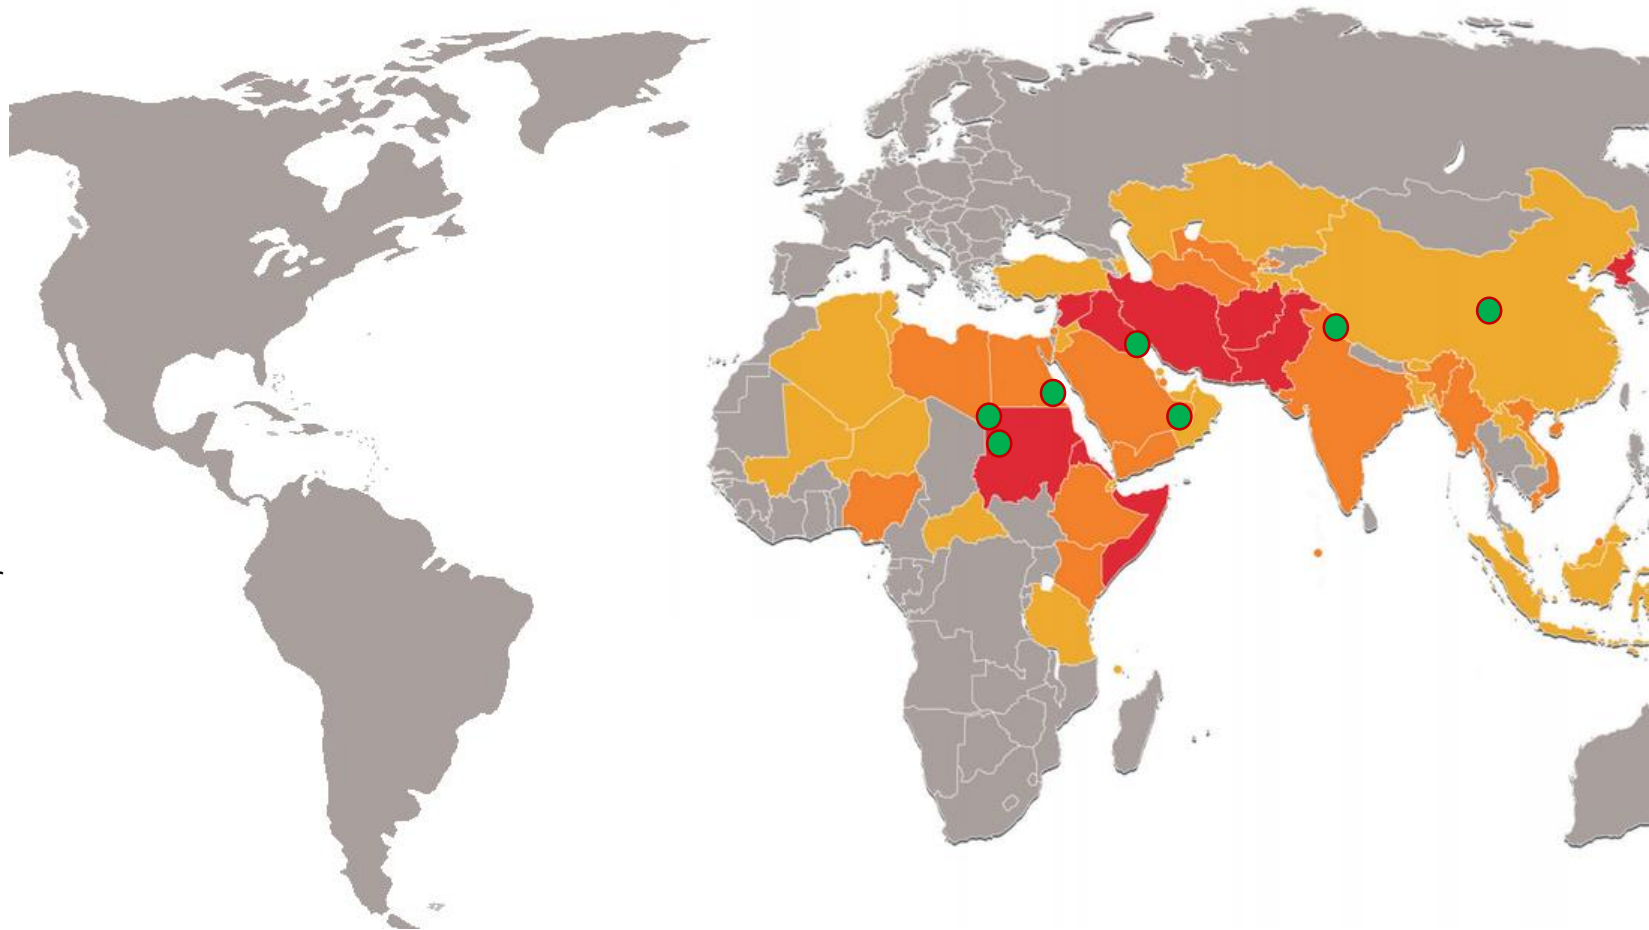

We ask every Persecuted Church we work with to do two things:

1. PRAY for the awakening of the American Church

AND

2. Share the miracles God is doing on the ground with their western church partner

*We Believe the Prayers & Faith of the Persecuted
will Awaken the American Church!*

2016-2017

- We have delivered gospel content and seminary training to more than 20 campuses across the Middle East, Africa, and Europe.
- The relationships established are making an impact on the American church

A Glimpse into true partnership...

Excerpts from a letter recently received from a church in Florida that we partnered with a church in Syria:

“It has evolved to a mutual trust in each other, and even having conversations with them on the phone over the speakers during the service.”

“...hearts were touched and momentum is building. We provide the Syrian church with our resources and they provide us with their faith.”

“God is blowing open the doors in the Middle East for the Gospel. We were made for a time as this.”
